# Single Monitor Arm (Gas Spring) 7820S/782AS

## Product Description

- Weight capacity : 2-8 kgs (model: 7820S) ; 6-16 kgs (model: 782AS)
- Meets with VESA 75\*75 or 100\*100mm.
- Desktop c-clamp mounting up to 9cm thickness.
- The product color is silver.
- Gas assistant system easily adjusts the height of monitor.
- Cable management.
- Option: included 2x USB (male to female)

Weight Capacity      2-8 kgs (model: 7820S)  
6-16 kgs (model: 782AS)

Monitor Mounting Holes      VESA 75\*75 or 100\*100mm

Color available      Silver

Application using      Desktop c-clamp Arm

## Packaging Dimensions In Centimeters/Cubic Meters/Kilograms

Unit box Dimensions      16,5 (H) x 16,5 (W) x 92,5 (L)

Master Carton Dimensions      19,5 (H) x 35,0 (W) x 94,5 (L)

Master Carton Cubic Meters      0,065

Master Carton Weight Kgs      12,400

## Single Monitor Arm (Gas Spring) **7820S/782AS**

The Athena 7820S / 782AS Single Monitor Arms are ergonomic, gas spring-assisted mounting solutions designed for flexible and stable monitor positioning in clinical and high-standard work environments. Both models support VESA 75 × 75 and 100 × 100 mm and are mounted using a desktop C-clamp suitable for surfaces up to 9 cm thick. The 7820S is designed for monitors weighing 2–8 kg, making it ideal for standard medical and professional displays, while the 782AS supports heavier screens with a load capacity of 6–16 kg, offering additional strength for larger or more robust monitors. The integrated gas spring system allows smooth and effortless height adjustment, helping users achieve an optimal ergonomic viewing position. Finished in a clean silver design, both models feature integrated cable management to maintain an organized workspace, along with two USB pass-through ports for convenient connectivity at the workstation. Together, the 7820S and 782AS provide reliable, ergonomic solutions for a wide range of monitor configurations.
