# Medical Scanners

Athena Medical Scanners are designed for fast, reliable data capture in healthcare and pharmaceutical environments. Supporting both 1D and 2D barcodes, these scanners enable efficient identification and tracking of medication and medical products. With a robust IP65, antibacterial housing and compliance with the Falsified Medicines Directive (FMD), they support safe workflows while maintaining high hygiene standards. Their wireless operation and optional mounting solutions make them easy to integrate into daily clinical practice.
