## Flagship Performance for Fixed Environments

The **Athena Phoenix AIO PC (non-powered)** delivers flagship performance for environments where continuous, fixed operation is key. Equipped with the latest **Intel Core Ultra Series 2 processors** and a fully sealed **IP65 design**, it offers fast, reliable performance in demanding, high-standard environments.

Without an internal battery, this version is ideal for **permanent installations** such as wall-mounted systems, Battery powered workstations, or integrated solutions. With **extensive I/O connectivity**, an **adjustable webcam position**, and a robust medical-grade construction, Phoenix provides maximum flexibility and integration—bringing next-generation performance to every fixed setup.
